The film sector in Sonoma County generates revenue, jobs, and an expanded awareness for the area. The Sonoma County Economic Development Board produced a film sector economic report to measure the specific economic impact that the industry has on our regional economy. This industry comprises establishments primarily engaged in producing, or producing and distributing motion pictures, videos, television programs, or television commercials, from both local groups and those coming from outside of the county. The multiplier effect of videos and films being shot and produced in Sonoma County generates about $134 million total in direct, indirect, and induced outputs.

**TOP 5 EMPLOYMENT INDUSTRIES**

- **Motion picture and video industries** (Direct)
- **Independent artists, writers, and performers** (Indirect)
- **Marketing research and all other miscellaneous professional, scientific, and technical services** (Indirect)
- **Promoters of performing arts and sports and agents for public figures** (Indirect)
- **Real estate** (Induced)

The film sector in Sonoma County employs from these top five industries. The top directly employed industry are the Motion Picture and Video Industries. Occupations in this category include producers, directors, camera operators, ushers, and ticket takers.

**TOP 5 OUTPUT INDUSTRIES**

Top Induced and Indirect Economic Output Industries from Sonoma County Film (millions)

- Motion picture and video industries: $4.9 million (Induced), $5.7 million (Indirect)
- Independent artists, writers, and performers: $1.4 million (Induced), $2.4 million (Indirect)
- Real estate: $2.9 million (Induced), $2.4 million (Indirect)
- Promoters of performing arts and sports and agents for public figures: $3.0 million (Induced), $3.0 million (Indirect)
- Owner-occupied dwellings: $2.9 million (Induced), $2.9 million (Indirect)

These are the top five industries with the greatest economic output as an indirect or induced effect from the film sector. The indirect and induced numbers are a result of the Motion Picture and Video Industries’ $83.3 million direct value impact into Sonoma County’s economy.

2019 industry data is provided by IMPLAN, an input-output model.

*Direct output is calculated by Value Added (VA) + Intermediate Expenditures, where VA = Proprietor Income + Employee Compensation + Taxes on Production and Imports + Other Property Income. Intermediate Expenditures are defined as “purchases of non-durable goods and services, and purchased services used for production of other goods and services.” (IMPLAN).

*Indirect impacts are generated by business-to-business activity, excluding intermediate expenditures, such as hiring a marketing agent for a production.

*Induced impacts are from employees and suppliers spending their money throughout the economy.
